

Travelling with
 **Sola**

There are lot of requirements that have to be followed in the case of cutleries made for special needs of transportation. First class traveling and dining runs under similar conditions than best hotels and restaurants and serving has to be perfect. But the question of safety in transport is more than important, too. And due to this there are special lightweight materials used and design customized. Cutleries branded by Sola Switzerland are the greatest solution for all the ways of transport preferred: airplanes, cruisers and trains.
